

Our portfolio of mosquito netting products

Tana Netting has over 26 years' experience offering a complete portfolio of mosquito netting products for malaria control, personal protection and home décor.

DawaPlus® long-lasting insecticidal nets

DawaPlus® is Tana Netting's 100% polyester long-lasting insecticidal mosquito net (LN) and is treated with deltamethrin insecticide, which repels, knocks down and kills mosquitoes, reducing the risk of malaria transmission. Unlike conventional insecticide treated nets (ITNs), which must be re-treated after every four to five washes, DawaPlus® remains effective against malaria mosquitoes for over 20 washes. For more information about DawaPlus®, visit www.tananetting.com/dawaplus

Mosquito nets bundled with K-O Tab® 1-2-3* treatment kits

For manual field treatments, we offer untreated polyester mosquito nets bundled with K-O Tab® 1-2-3* treatment kits from Bayer Environmental Science. K-O Tab® 1-2-3* is a concentrated tablet designed for the treatment of mosquito nets with deltamethrin to provide a long-lasting repellent and killing effect against mosquitoes.

Untreated and standard insecticide treated nets

We also offer untreated and standard insecticide treated mosquito nets (ITNs) treated with deltamethrin or permethrin. Our nets come in a wide range of sizes, colors and shapes for health and decorative applications. Untreated nets provide a basic level of protection, while ITNs are efficacious against malaria mosquitoes for up to six washes.

Travel and personal protection

Our full range of mosquito nets is also available in compact, lightweight shapes and sizes for travelers and personal protection. Through partnerships with leading travel suppliers, we offer our popular Spider®, Tracker® and Solo® travel nets in LN, standard ITN and untreated versions. And we have developed customized personal protection mosquito netting products for military and civilian uses like the Angolan military, NATO and COTCO.

Other applications

In addition to our standard public health, travel and decorative product ranges, Tana Netting and SiamDutch manufactures mosquito netting products for a variety of other applications, including baby crib nets, window netting, water jar covers and insecticide-treated curtains. Please ask our marketing team for more details.
